## ORANGE LIPSTICK

If you're a colour-shy gloss-wearer, you might find the bold lip too terrifying. So try a pigmented lipgloss, then graduate to a lightweight, sheer lipstick to stay on trend without having to suppress a scream.

## BLEACHED BROWS

A frightening look, even for blondes! But it was everywhere: Balenciaga, Prada, Givenchy... our advice: avoid the peroxide and try the less scary **Diorshow Brow Fixing Gel in Shiny Blond** £14 Dior.

## NAKED LASHES

Unthinkable! Instead, Mac senior artist, Pablo Rodriguez, suggests: "Go more natural with a brown mascara instead of black."

## THICK BLACK EYELINER

Covering the lid and socket with eyeliner is tricky. Follow the directions of Giorgio Armani's head face designer, Fred Letaillieur: "Draw a thick line from the inner to outer corner with a pencil, then look up and down. A print of the line will appear over the socket and give you an outline to fill in. Then sharpen with a liquid liner."

**Maestro Eye Liner in Black** £20 and **Smooth Silk Eye Pencil in Black** £16 both Giorgio Armani
